# Nautical tourism and product development in Latvia

Mārtiņš Eņģelis  
LIAA  
Tourism department

## Services offered by LIAA

- Media visits
- Exhibition spaces
- Informative printed materials
- Seminars and participation
- Statistics ?
- Consultation and networking
- Latvia.travel web presence

## Issues and potential

- No information on ports on the way
- Prejudice toward the region
- No tourism marketing activities
- No side-kick events and products
- Low general visibility
- Segregation between local and tourist
- Climate change

## Connecting Sailors and Marinas

The INTERREG SmartPorts project aims to offer a cross-border platform connecting Sailors and Marinas

**Project information**

The SmartPorts project is pushing to improve services of existing small ports to improve local and regional mobility and contribute to tourism development. The project has a number of activities outlined in the details section. All participating ports will have a physical Kiosk onsite in order to offer electronic services.

**Recent Posts**

- 07.03.18 First Steering Group Meeting held
- 16.02.16 Procurement process update
- 16.01.16 Members of project's Steering Group
- 16.12.15 Lead Partner and Communication seminar
- 14.12.15 Kick-off meeting materials available

**Sailors**

The platform will provide up to date information of the participating Marinas via electronic channels. It will also provide a platform for booking and processing payments for Marina services.
