Sites per regions

- **West-Estonia:**
 - 3 Lighthouses
 - 2 Railway Heritage
 - 2 Manufacturing sites
- **South-Estonia:**
 - 3 Mills
 - 2 Manufacturing sites
- **North Latvia (Vidzeme):**
 - 1 Railway
 - 1 Water Tower
 - 2 Manufacturing sites
- **Rīga region:**
 - 2 Mills
 - 1 Watertower
 - 2 Manufacturing sites
- **West Latvia (Kurzeme):**
 - 1 Lighthouse
 - 2 Manufacturing places
 - 1 Railway
 - 1 Water Tower

5 thematic groups of sites

3 Water towers

5 Mills and
hydropower stations

5 Railway heritage

9 old manufacturing
sites

4 Lighthouses

5 Mills and hydropower stations

- Lahmuse Watermill
- Leevaku hydroelectric power station
- Hellenurme watermill
- Jaunpils watermill
- Rideļi watermill

Lahmuse Watermill

Old and treasured Seck Dresden
flour machine is worth to see!

Budget- 29 500.00

- interior renovation
- outdoor renovation
- Interactive exposition
- homepage creation

Leevaku hydroelectric power station

With a glorious history!

- Budget- 30 000.00
- Renovation of two second floor rooms
- Interactive billboards, exhibits – introducing hydropower and location history
- Camera system integration for introducing plants today's work (video images are projected onto a second-floor room to the big screen)
- Electronic tour guide solution implementation

HELLENURME MILLMUSEUM

Welcome to see and feel old working watermill!

Budget- 30 000.00

- Reconstruction of bridge
- Reconstruction of courtyard
- Visitors will have a safe access to turbine room and possibility to watch flowing water, and access to balcony.

JAUNPILS MILL

Get to know how grain grows to a delicious meal – you can join in the process!

Jaunpils municipality
30 000 EUR

- Reinstalled the equipment to involve the visitors in educational and attractive workshops (grain grinding process, joint cooking of meals from historic recipes)

RIDEĻI MILL

Rideļi mill is the place where
meets history of the 8 mills!

SIA Rideļu dzirnavas
Budget: 22 800 EUR

- Develop an interactive programme with workshops
incl. cooking pancakes in authentic environment.
- Video film to visualize
- Improving the quality of exposition
(signs about objects, signs to orientate,
lightning, parts to restore equipment etc.)

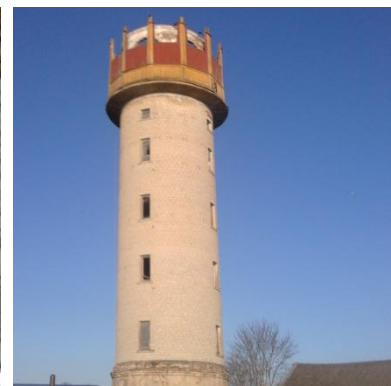

3 Watertowers

- Aizpute Water Tower
- Bīriņi Water Tower
- Zilaiskalns Water Tower

AIZPUTE WATER TOWER

Aizputes novada dome
Budget: 40 000 €

- Renovation of the tower (stair instalation, Upper floor adoption)
- Interior concept (for specific shapes of the tower)
- Audio un sound system files development,
- The exposition development (visitor room Equipumnt, information stand)
- Telescope on the top floor
- Street sign in Aizpute

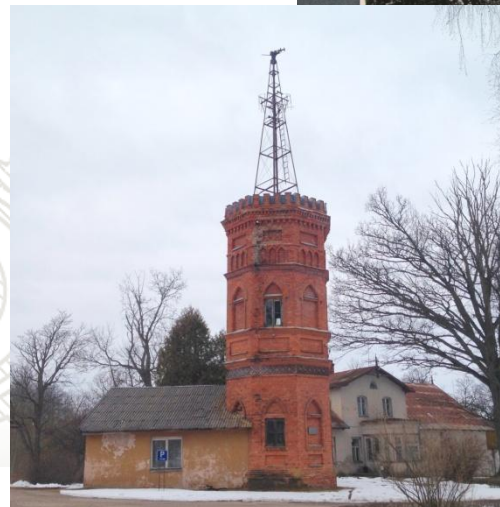

BĪRIŅI MANOR WATER TOWER

The only preserved water tower
with wind wings in the Baltic
states

SIA Saule Bīriņu pils

Budget 25 000 EUR

- Restored wind rotor/turbine of water tower
- Improve entrance safety
- Model of the water tower

ZILAISKALNS WATER TOWER

Zilaiskalns Water tower fits in Zilaiskalns townships which is built only for peat factory workers.

New interactive tourism product based on industrial traditions will be developed.

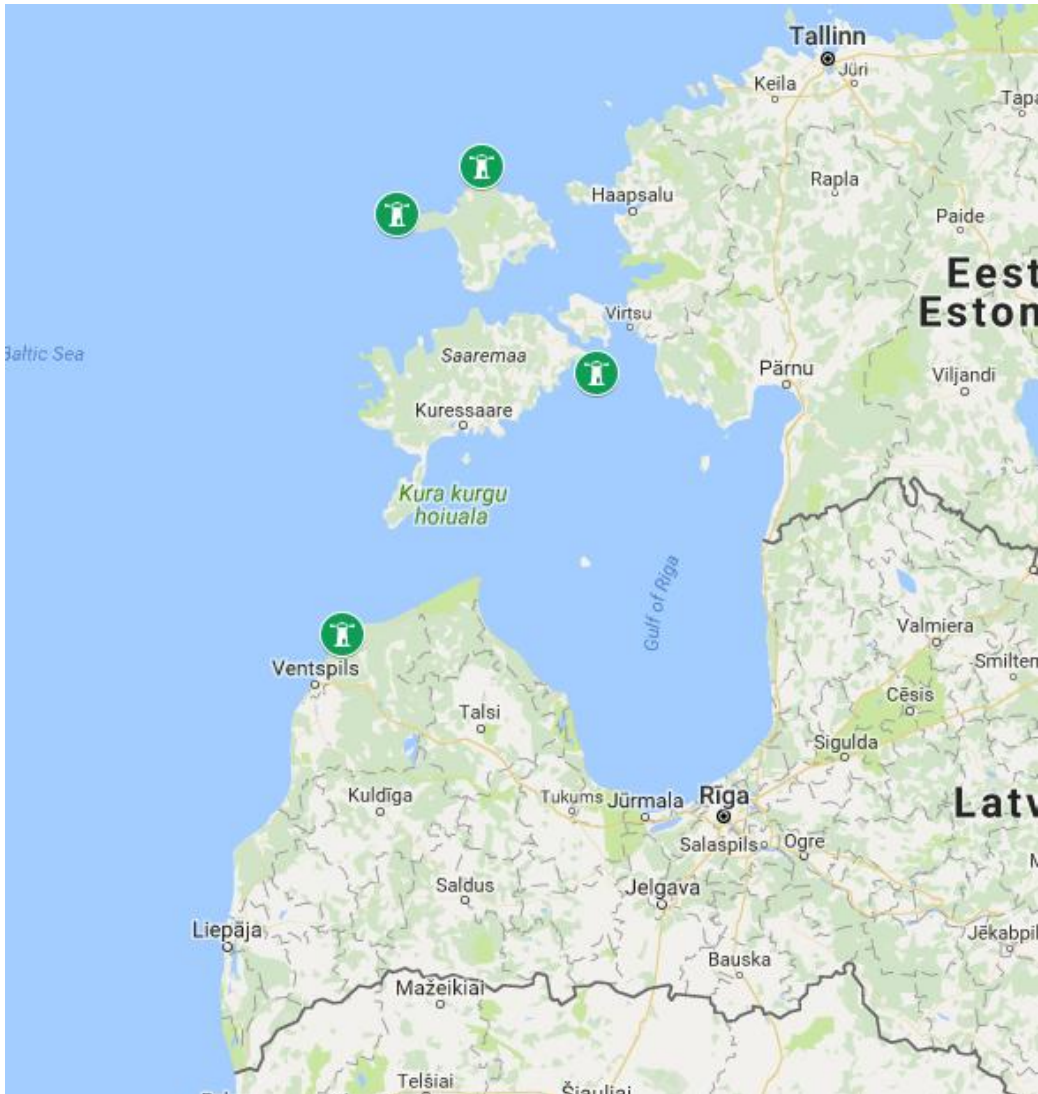

Kocēni Municipality
Budget: 30 000 EUR

Adapted water tower for visitors
Set up three level expositions in the water tower:

- about peat extraction industry
- about soviet time industrial village – Zilkaiskalns
- about water supply system

4 Lighthouses

- Oviši Lighthouse
- Tahkuna Lighthouse
- Ristna Lighthouse
- Kübassaare lighthouse

OVĪŠI LIGHTHOUSE

The oldest functioning lighthouse in Latvia today

Ventspils brīvostas pārvalde

Budget: 30 000 €

- Detailed concept for the exposition
- Visitors' room adoption
- 3 interactive hands-on exhibits and non-interactive gallery
- Renovation of lighthouse collection

Photos: Raimonds Rāts

Hiiumaa, Estonia

Tahkuna and Ristna lighthouses

Ristna Lighthouse

NGO Eesti Tuletorni Selts

Budget: 37412 EUR

Hiiumaa, Estonia

Tahkuna and Ristna lighthouses

Tahkuna Lighthouse

Tahkuna lighthouse fence will be renewed and repositined to open the entrance to site building.

Tahkuna and Ristna lighthouses will be equipped with stands explaining visually the technical history.

A thematical walking path around the Tahkuna lighthouse will be created using existing paths nearby.

Investment will help to create a new tourism product, which will increase the number of visitors and lengthen the stay.

SITE

Tech-building of Kübassaare Lighthouse

Partner: Põide Municipality

Budget: 22 500 EUR

Surrounding: nature trail in high nature value
broad-leaved forest

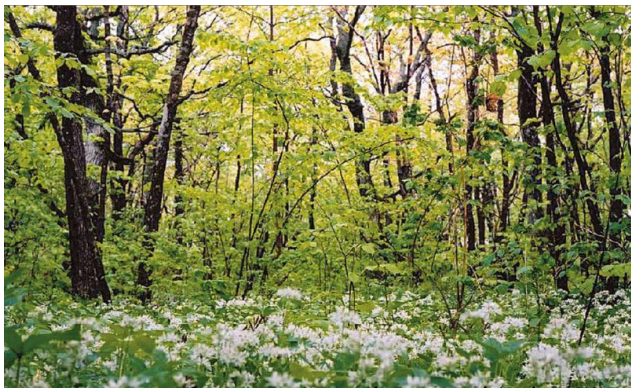

Photo: Roland Muur

SITE

Tech-building of Kübassaare Lighthouse

Current situation: apparatus is functioning but the building is closed for visitors

Activities and expected results:

- develop educational programs and science camps for pupils about electricity and radio communication.
- hands on activities for families about electricity and radio communication
- open building for visitors

5 Railway heritage

- Airõtes Railway station
- Baloži peat railway
- Gulbene - Alūksne Railway Depo
- Risti Watertower
- Haapsalu Railway Museum

AIRĪTES

RAILWAY STATION

Biedrība “Airītes stacija”

Budget: 12 000 €

- Interactive offer for visitors
incl. IT development, texts
- Restoration costs of collected items for station
- Exposition elements
- Improving the condition of premises
(painting, wiring, lights, roof reparation etc.)

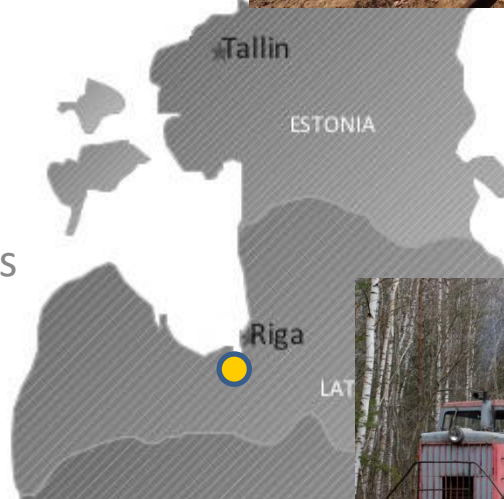

BALOŽI PEAT MUSEUM RAILWAY

Take a ride with Baloži railway - the oldest preserved peat narrow gauge railway in Latvia!

Ķevaka municipality
30 000 EUR

- Develop infrastructure and equipment for the guided tours (mini-exhibition, production of historical uniforms for the guides, photos and videos materials)
- Increase the capacity of the train – building an open-air passenger carriage
- An interactive guided tour will be provided to the peat field

GULBENE DEPOT

*The Gulbene – Alūksne railway is
the last operational narrow gauge
railway in the Baltics*

“Gulbenes – Aluksnes bānītis” Ltd
Budget: 30 000 EUR

Renovated premises for the exhibition on visitor's area about
history of the Gulbene-Aluksne narrow gauge railway
Developed promotional video about history and possibilities for
tourist activities on the heritage railway and vicinity
Reconstructed historical hand driven trolley

Risti Water Tower

Lääne-Nigula Municipality
(Lääne-Nigula Vallavalitsus)

Budget: 12 500 €

Risti

Water Tower

We would like to...

- Introduce history of whole railway station
- Show and teach how water tower actually worked
- Give hints about life at railway station

For that we will...

- Renovate the tower
- Place interactive information boards
- Build small model to show water flow in tower
- Mark selfie spot

Haapsalu Railway Station: Railway and Communications Museum

The Museums of
Haapsalu and Läänemaa
Budget: 42 500 €

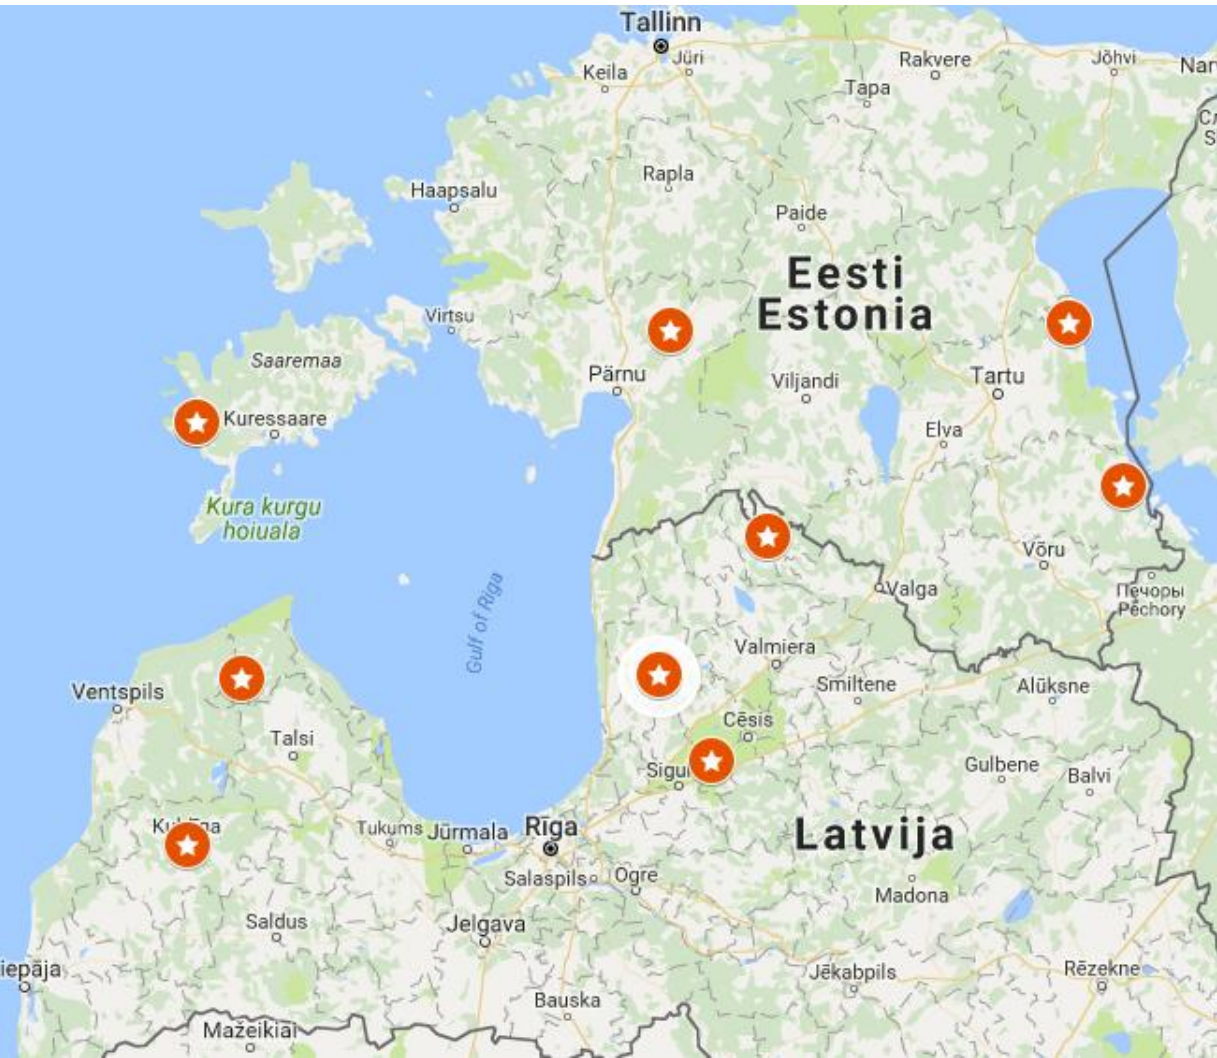

Haapsalu Railway Station: Railway and Communications Museum

- Enjoy in the real old railway environment - one of unique wagons will be renovated (exhibitions, events etc)
- Expected number of visitors after project until 2020 about 30 000.

9 Old manufacturing sites

- Lümanda lime park
- Tootsi peat briquette factory
- Alatskivi barn-dryer
- Räpina Paper factory
- Limbažu Tīne wool and textile fabric
- Ņoni Watermill
- Līvõd Rānda Paper factory Workers Flat
- Kuldīga Industrial Heritage Tower
- Pāce Wool Factory

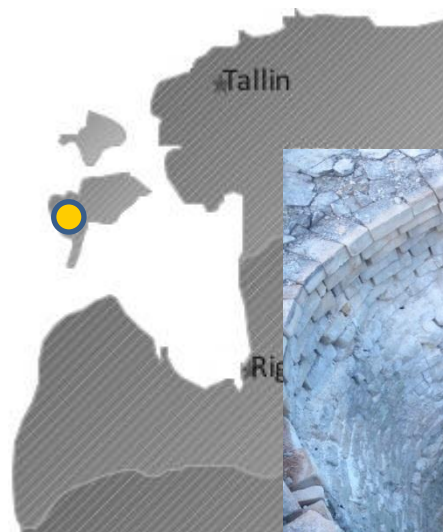

LÜMANDA LIME PARK

Partner: Limex Ltd.

Budget: 15 000 EUR

Renovation of the main tourism attraction and industrial heritage object in Lümānda Lime park - **historical limekiln**.

Translating and sound-editing of the short-movie about lime processing into Latvian, German and Russian, renewing the site information online - www.limex.ee, updating and printing the information booklet of the site etc.

Tootsi Peat Briquette Factory

- new industrial tourism product in
Pärnu County

NGO Eesti Turbamuuseum
(MTÜ Eesti Turbamuuseum)

<http://eestiturbamuuseum.ee/>

Budget: 18 000 EUR

Tootsi Peat Briquette Factory

- new industrial tourism product in
Pärnu County

Activities and expected results:

- Creating a visitor journey through the factory:

Creation of a "peat road"/ a visitor journey through the former fabric area for people to see the machinery that was in use for peat production; designing and marking the walking path, content with information about how the machinery worked, exposure of peat history etc.

- Equipment for visitor journey:

- security boundaries and other similar elements to keep visitors from moving out from the safe area and also signposts and information boards for information through the factory

- Interactivity: audiovisual technology for exposition and tours in the factory
- Refurbishing the hosting rooms: Refurbishing work will include supplementing the lightning and improving heating system, interior design, painting walls and ceilings in hosting rooms etc.

Alatskivi barn dryer

- Budget 29 970.00
- to renovate the tray-dryer room
- to display the tray-dryer
- to create an exposition
- hands-on activities

The unique tray dryer dating back to 19th century!

Räpina Paper Factory

Worlds oldest working paper mill and paper machine is a sight to see!

- Budget- 30 000.00
- Guest staircase and entrance will be repaired
- Facade reconstruction
- Interactive information stand will be placed outside

LIMBAŽU TĪNE THE WOOL PROCESSING FACTORY

Worth to see – historical equipment form 1920
80 % of Latvian national costume fabriques made by
Limbažu tīne

SIA Limbažu tīne
Budget 24 975EUR

- Develop tourism product, incl. fixing historic production machines
- Separating production process from visitors' walking area
- Developing the content for tourism package for visitors
- Developing exposition to demonstrate different samples and patterns of production.

KOŅI MILL

Koņi mill is the only place in Latvia where grain grinding, wool spinning and sewing of blankets filled with wool can be seen together.

"Koņu dzirnavas" Ltd.

Budget: 30 000 EUR

Developed interactive offer for visitors -interactive games and education programs

Established the exposition hall and modernized sewing workshop

Repaired and maintained carding and spinning equipment

LĪGATNE PAPER MILL WORKER'S FLAT

Līgatne paper mill village has been awarded Europe's most excellent tourism destination in Latvia in 2011

Līgatne Municipality
Budget: 30 000 EUR

Reconstructed and furnished historical flat of the workers

Set up the exposition of historical workers flat

Developed interactive offer for visitors to give insight of the lifestyle of workers

KULDĪGA

INDUSTRIAL HERITAGE TOWER

Kuldīgas novada pašvaldība

Budget: 40 000 €

- Elaboration of the concept for the exposition , development of IT solutions
To display the story
- Reconstruction works to adopt
former Needles and Telegraph Tower
for hosting visitors

PĀCE WOOL FACTORY

Ltd “Wool Factory”

Budget: 12 000 €

- Site adoption for the visitors tours
- Development of workshop
(incl. preparation of videos, equipment)
- Implement development of program,
tour safety measures
