Connecting Sailors and Marinas

The INTERREG-UG SmartPorts project aims to offer a cross border platform connecting Sailors and Marinas

Project information

The Smartports project is pushing to improve services of existing small ports to improve local and regional mobility and contribute to tourism development. The project has a number of activities outlined in the details section. All participating ports will have a physical Kiosk on-site in order to offer electronic services.

Recent Posts

- 07.03.18 First Steering Group Meeting held
- 16.02.16 Procurement process update
- 18.01.16 Members of project's Steering Group
- 16.12.15 Lead Partner and Communication seminar
- 14.12.15 Kick-off meeting materials available

Sailors

The platform will provide up to date information of the participating Marinas via electronic channels. It will also provide a platform for booking and processing payments for Marina services.
