### SKICE

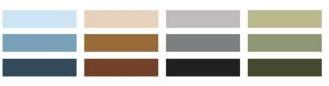

Skicē attēlots vēsturiskais bānītis, kas mijas ar sliežu zobratiem, sliedēm un citām tehniskām detaļām. Fonā kalnu/dabas, ciemata māju ainas (ar atsauci uz Zilālna lokāciju). Zīmējums iestiepsies arī konteinera sānu malās. Konteinera redzamajā daļā paredzēts ZRAILBIKES logotips (uzpūsts, izmantojot trafaretu). Stils grotesks, jo smalkām detaļām tehniski ierobežo konteinera faktūra. Izpildījumā precīza ģeometrija mijas ar brīviem, improvizētiem elementiem. Toņiem paredzēts izmantot dabiskas krāsas, kas mijas ar tehnisko detaļu pelēkzilo un rūsgano paleti.

P.S. Lai veidotos harmonisks mākslas darbs, radošā darba procesā var tikt ieviestas nelielas novirzes no skices (piem.pievienoti elementi), ņemot vērā situācijas kontekstu.
